|  | ) |   |

Pursuant to Civ. Local Rule 3-13, plaintiffs Michael Brauch and Andrew Meimes (“Plaintiffs”) identify the following cases in which substantially similar antitrust law violations are alleged to have occurred due to Intel Corporation’s (“Intel”) use of its substantial market power to unlawfully maintain its monopoly by engaging in a relentless campaign to coerce customers to refrain from dealing with Advanced Micro Devices, which resulted in customers paying higher prices for x86 microprocessors and left them with fewer buying choices for such microprocessors.

Each of the following cases therefore relates to the general subject matter alleged in this action.

1. *Suarez v. Intel Corp.*, No. 05-CV-1507 JM (RBB), filed in the United States District Court for the Southern District of California on July 27, 2005, assigned to Judge Jeffrey T. Miller, and referred to Magistrate Judge Ruben B. Brooks.
2. *Ramos v. Intel Corp.*, No. 1:05-cv-00544, filed in the United States District Court for the District of Delaware on July 28, 2005. This action has not been assigned to a judge as of the date of this filing.
3. *Bergerson & Associates, Inc. v. Intel Corp.*, No. 1:05-cv-00547, filed in the United States District Court for the District of Delaware on July 28, 2005. This action has not been assigned to a judge as of the date of this filing.

On July 11, 2005, Plaintiffs filed a motion with the Judicial Panel for Multidistrict Litigation, pursuant to 28 U.S.C. §1407, requesting that all pending and subsequently filed actions in this and other district courts be transferred and coordinated or consolidated in the Northern District of California for pretrial proceedings. A copy of that motion was lodged with the clerk of court on July 11, 2005. The Plaintiffs believe that coordination of the foregoing cases pursuant to 28 U.S.C. §1407 (Multi-District Litigation Procedures) will avoid conflicts, conserve resources and promote an efficient determination of the action.

Dated: July 29, 2005

Respectfully submitted,

By: /s/ Alex C. Turan
